EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard A. DeCristofaro (Reg No. 51,601) on June 23, 2006.

The application has been amended as follows:

14. (Currently amended) A method for dynamically configuring a satellite to communicate over a network comprising at least one earth station and at least one satellite in accordance with an open system interconnection (OSI) reference model, the method comprising:

transmitting an object from an earth station to a satellite, said object comprising data conforming to at least one protocol and said object further comprising executable code for implementing said protocol at said satellite;

receiving said object at said satellite;

extracting at least said executable code from said object at said satellite;

temporarily storing at least said executable code in memory at said satellite;

dynamically configuring the satellite to support the OSI reference model using said executable code; and

Art Unit: 2616

executing said executable code for implementing at the satellite at least one layer of the OSI reference model, including ~~adapting said~~ replacing existing network layer protocol ~~for~~ with at least one of internet protocol and asynchronous transfer mode protocol.
